

DOLLY[®]
Spare Parts

Dolly spare parts®, from the “fix everything Club”

Dolly Spare Parts® are Club dei Riparatori® by IDROBASE® products.

The “Dolly range” from the Club dei Riparatori is an extensive range of spare parts for pumps for high pressure washers containing the same interchangeable characteristics as other products from pump manufacturers.

The difference can be found in the price, which are on **average 25% lower than that of the original parts**; then, today you can choose both the supplier and the spare parts.

This saving is a result of a special organisational structure within the Club dei Riparatori as it does not use intermediaries to promote its own products, but instead concentrates its efforts into **assuring real time supply and dispatching client orders within 48 hours** thanks to a large supply of spare parts and thanks to an automated order management process which makes use of high tech vertical warehouse storage.
